The Gulf Coast Report: Refining & Petrochemicals

Two of the largest CPI sectors are the Refining & Petrochemical markets. Margins and project activity in both of these sectors are starting to see positive growth. With capital spending expected to increase in 2014, *Chemical Engineering* is offering a very targeted HPI issue with extensive coverage of this highly profitable market.

In May, *Chemical Engineering* will publish a special Gulf Coast Refining & Petrochemicals advertising section. Advertisers running a ½ page or larger ad will receive a bonus ½ page advertorial write-up. This is the most economical way to get your message into the hands of the CPIs critical decision-makers.

Also included in this issue will be a Newsfront on the Refining Sector. There will also be articles relevant to the HPI on Leak Detection, Heat Exchangers, Wireless Technology and Pumps. Distribution of this targeted issue will also be made at the AFPM Reliability & Maintenance Conference May 20-23 in San Antonio.

Submission terms:

TEXT DOCUMENT: 350-400 words

PHOTO: Jpeg, Tiff, and Eps files are acceptable
