

HOT PRODUCTS

Chemical Engineering's Premium Product Showcase

HOT PRODUCTS is a tool that guarantees product exposure to the global audience of Chemical Engineering. Whether it's a new product launch or to promote existing products before an event, HOT PRODUCTS will give you the edge you need to ensure premium exposure.

You can reach 20,000 decision makers in the chemical process industries (CPI) with the monthly HOT PRODUCTS e-newsletter or showcase your product with a combination of print and e-newsletter marketing, reaching a combined audience of more than 81,000. Each HOT PRODUCT listing in the HOT PRODUCTS e-newsletter and the print edition of Chemical Engineering includes a product photo and a 100-word product description with a URL to your website.

For more than 113 years, Chemical Engineering has been the leading industry source for market insight and information. By utilizing HOT PRODUCTS, you are partnering with the trusted brand in the CPI.

	Open Rate	3x Rate	6x Rate	12x Rate
E-newsletter Only:	\$2,100	\$1,900	\$1,700	\$1,500
Print & E-newsletter:	\$2,900	\$2,500	\$2,200	\$2,000

3D LEVEL MEASUREMENT OF COAL AND FLY ASH

3D LEVEL MEASUREMENT OF COAL AND FLY ASH
BINMASerics 3D LevelScanner measures the level of coal and
fly ash in bins, silos, and hoppers. Acoustics-based technology
penetrates dust and requires minimal maintenance and no air
purge. One or more sensors continuously measure and map
multiple points on irregular material surfaces to ensure high
volume accuracy. Optional 3D visualization of bin contents
shows buildup and location of high and low spots. Detects fly
ash levels in ESP hoppers to optimize emptying cycles and
ensure long plate liffe. Multivision software allows you to view
and manage inventory for all your vessels from a PC on a
single screen.
